

MADHANKUMAR A

AEROSPACE ENGINEERING UNDERGRADUATE | UAV SPECIALIZATION

Email: madhankumaraero@gmail.com | Phone: +91 93457 44781 | Location: Coimbatore, Tamil Nadu, India

CAREER OBJECTIVE

Aerospace engineering undergraduate passionate about UAVs, CAD modelling, AI, and autonomous systems seeking internship and core engineering roles.

EDUCATION

B.Tech - Aerospace Engineering | Periyar Maniammai Institute of Science & Technology (PMIST)

Score: CGPA 8.0 / 10.0 | Expected Graduation: 2027

KEY ACHIEVEMENTS & COMPETITIONS

- Youth Astronomy & Space Science Congress (YASSC) 2026 - State-Level Selection**
Developed ASTRA NOVA: MISSION HORIZON aerospace game for YASSC competition.
- Dream2Reality Idea Competition - 1st Place Institutional Level (Advanced to Regional Level)**
CSR initiative by PSG-STEP Coimbatore, Atlas Copco, Trident, Dept. of Aerospace Engg & Periyar TBI.
- Bharatiya Antariksh Hackathon 2026 & Smart India Hackathon**
Explored space engineering applications, autonomous algorithms, and multi-domain prototyping.

INTERNSHIP EXPERIENCE

UAV Pilot Operations & Flight Training - Aerowings (Oct 2025)

- Completed comprehensive pilot training for multirotor & fixed-wing UAV platforms.
- Hands-on flight maneuvers, failsafe telemetry calibration, and pre-flight inspections.

Aeromodel Design & Assembly Intern - Aviatech (Nov 2024 - Dec 2024)

- Assembled functional multirotor and fixed-wing aeromodel aircraft from structural airframes.
- Center of gravity balancing, aerodynamic trim adjustments, and field flight testing.

TECHNICAL SKILLS

- Aerospace & UAV: Multirotor Assembly, Fixed-Wing Aeromodels, Flight Testing, Telemetry, Avionics
- CAD & Drafting: CATIA V5, AutoCAD, GD&T, 2D/3D Modelling, Structural Drafting
- Programming & AI: Python, C/C++, OpenCV, PyTorch, Computer Vision, Real-Time Video
- Embedded & IoT: ESP32, Arduino, I2S Digital MEMS Sensors, Wi-Fi Telemetry, Robotics
